Dear Parent,

It is with great pleasure that I offer an opportunity for your student to participate in this wonderful program. The CRASH Workership Program was established several years ago (before I came) to help students earn money for summer mission trips. I cannot begin to tell you how many people have come to me with wonderful stories of your kids doing work at their homes, and the enjoyment they get out of writing out that check, knowing that that particular student is going to do something amazing for the Kingdom!

This year's program is a little different. To make sure we utilize as many students as possible, and to be efficient with the funds donated, we require that any student interested in being a part of the CRASH Workership Program fill out the attached application form. Hopefully, this will alleviate confusion and missed work opportunities.

We will assign workerships as equitably and fairly as humanly possible. Our desire is to provide both a helpful service for those who are hiring the student and a chance for students to earn money for their summer missions experience with CRASH ministries and College Hill Presbyterian Church. Check will need to be made out to College Hill Presbyterian Church with the word "Workership" in the memo line. Because they receive a service for their money, this amount is not tax-deductible. If someone would like to donate extra (on top of what they are paying for the work), they may do so by writing a separate check with the phrase "Youth Missions" in the memo line. Please do not confuse the two. Let's be honest and handle this program with integrity.

If, at any time, your student needs to be removed from this program, please contact me directly, and I will take them off the list immediately. If your student performs workerships, and decides not to participate in the mission trip, that workership money will go to CRASH missions general account, and will be used to assist other students needing extra help.

Thank you for allowing me to serve you and your family in this pursuit.

For the Heart of the King,

Tony Buxsel
